**Medicine Wheel Model:
Creating Balance
through Connection**

6:00—8:00 p.m.

1.5 Contact Hours

Hosted at Idaho State University
Meridian Campus—Room 506

Please join us for this educational and networking opportunity!

The Medicine Wheel symbolizes the individual journey we each must take to find our own path.

The Medicine Wheel is an ancient symbol arising from within many indigenous communities.

The wheel is used as a way of analyzing a concept by envisioning it from various viewpoints.

It is important that each aspect of the Medicine Wheel be considered equally and be developed with the purpose of achieving balance, connection, and holism through an individual's volition, as is represented at the center of the wheel. The Medicine Wheel model is a flexible analytical tool that can be used for human and spiritual development and the connection of the therapeutic relationship.

As an organization approved by the National Board for Certified Counselors (Provider No. 2013), ICA is offering this activity for continuing education credit. ICA maintains the responsibility for the program.
